PROFILE

I bring my experience in the design, installation, testing, and maintenance of web systems. I am able to effectively self-manage during independent projects and collaborate in a team setting.

EMPLOYMENT HISTORY

Senior Software Engenieer at POAP
May 2021 — Present

- Worked to solve complex problems using the latest in Cloud, Mobile, and Web Technologies.
- I generated and maintained a public library called POAP.js, where people could integrate with the ecosystem seamlessly.

Full Stack Developer at Quipu Market
April 2020 — May 2021

- I created the standard for the Front-end design system with CSS.
- I developed a series of courses for all other developers to understand how the library worked.
- I created a private components library, which was shared between all apps.

Full Stack Developer at Turismocity
October 2019 — April 2020

- I gained extensive experience in using and developing proprietary API and integration with external API.
- Worked to meet the expectations of stakeholders and users continually.
- In charge of all new page designs.

Frontend Developer at WOLOX
June 2018 — October 2019

- I have expanded my skill set by constantly changing technology in Front-end tools such as Angular, React, and Vue.js, which has given me great adaptability.

Founding Member at Dome
April 2022 — December 2022

- I created the whole application from scratch, including CI/CD pipelines for both front-end and back-end applications.

EDUCATION

Software Engenieer, ITBA
July 2015 — July 2023

Master Of Science In Engineering, Fachhochschule Technikum Wien
February 2022 — July 2023

CERTIFICATION

AWS Certified Cloud Practitioner, Amazon Web Services
February 2021 — February 2024

UX/UI Designer, Acamica
2020 — 2021
